Quality, style and choice are our hallmarks.

Legend Fires was established in 1996 and has become one of the leading names in the development and manufacture of living flame gas appliances, electric media wall fires & outdoor wood burners.

Situated close to the Ribble Valley, an area of outstanding natural beauty, Legend has an unrivalled manufacturing and service reputation in the gas appliance industry. Quality, style and choice is our 'ethos' and we only supply dedicated fireplace retailers who can offer you a similar service. At Legend, we understand that everyone is individual. We have designed our products to be as bespoke to the individual as possible. We are extremely proud that we design, produce and assemble at our headquarters based in Lancashire.

"A vast selection of control, frame and fuel options are available and are featured in the website making the Legend Fires range of products one of the most versatile on the market today. We strongly believe our responsibility to our product does not end once it has left our factory. At Legend, we pride ourselves on our after sales and customer support, we firmly believe that this support, is the best in the industry. If you have any technical enquiries with regard to any of our products and services, please feel free to call our sales team, who will be willing and able to answer your questions."

John Stone and Susan Calvert

The Garden Cube

Say hello long Summer nights and making the most of your garden in the Winter

Enjoy your garden whatever the weather with our stunning wood burning outdoor patio & garden heater. The warmth of real flames radiate from all 4 sides of the Garden Cube and the view is captivating from all angles.

Featuring a contemporary glass encased cabinet with extended chimney, the Garden Cube is designed with performance as well as beauty in mind, creating peace of mind by offering a safer alternative to traditional fire pits or chimineas. The extended chimney draws smoke up and away from the area you sit, so you no longer have to worry about that powerful smoke scent lingering in your hair and skin for days. Better still, an ingenious ash collection tray ensures there is no mess.

A robust and fully powder coated steel body guarantees the Garden Cube can stand the elements outdoors allowing you to enjoy season after season with minimal effort. The Garden Cube is designed, manufactured and assembled at our headquarters based in Lancashire, UK.

LEGENDS OF Instagram

We are very fortunate to work with Legends up and down the country who share their experiences on Instagram. We have shared some of our favourite on here with their Instagram handles if you would like to check them out!

Vantage/Spirit/Superslim figures quoted are Indicative.

No Additional Ventilation is usually required with the above appliances that are rated at less than 7kw.

We recommend that a fireguard be used where children, the elderly and infirm are present Legend Fires Policy is one of constant development.

We reserve the right to change the design and specification of our products without formal notice.

All Legend Fires products are fitted with Oxygen Depletion sensing pilots and Flame Supervision Device as Standard.

We recommend that all Legend Products are installed and annually serviced by Gas Safe Registered Installers.
